Washington, Wednesday, March 16, 1864. THE PASSAGE OF THE GOLD BILL.

The majority for the Gold bill was unexpect edly large. The sense of relief in the House upon the passage of the measure was general and almost conratulatory. This token of a heretofore concealed aproval of the principles of the bill on the part of many who opposed it or threatened to oppose it, was not un observed. Experienced business men in the House, immediately on the passage of the act predicted that under Its provisions gold would slowly go down to 140. The mode of selling it by the Secretary of the Treasury, it is Said, will be to let Mr. Cisco daily supply merchants with certificates or coin at the market rates, whatever they are, and occasionally, as necessary, to throw into the market a quantity of coin, the object in both cases being the absorption of gold into the Treasury over and bayond its requirements.

This steady stream of released coin plowing into Wall street is looked to to sink its price beyond the power of speculation to hold it.

THE ANTI-MONOPOLY RAILROAD QUESTIONS The Camden and Atlantic and Raritan and Delaware Bay Road bill will come up in the House to-

morrow. New lines are projected. THE NEW SCHEME OF TAXATION.

The Sub-Committee of Ways and Means, to whom the new scheme of taxation was referred, will probably report to the Committee-in-Chief to-morrow.

It is said that they will take whisky out of the schedule for the purpose of making it the subject of a separate

Apprehensions are expressed that this method wil avor a protracted struggle over the article. It is well iown here that the recent long debate against the en eavor to tax whisky on hand lost the revenue nearly three millions of dollars. The new tax, and the debat upon it, will probably be based on the facts that ninety four per cent of all the whisky made passed down the bbroat of man, and that he does not care how much be pays for it.

In the cases of Messrs. Loan and McClurg the Combittee were equally divided. The easting vote of the Charman decided against them, upon the ground that their election was void, for being under military control. Afr. King's case will be referred back to the people by the report, inasmuch as it is in proof that he interfered in his official capacity in the election. A minority report will be submitted in favor of Messrs. Loan and McClurg. It is thought they will be able to convince a imajority in the House of the lawfalness of their election.

THE PROMOTION OF GEN. SMITH.

The Senate Military Committee will report in favor of the confirmation of Gen. W. F. Smith as Majore of Volunteers.

FROM ALBANY.

A Question of Privilege-The Police Bill-Union Caucus-New-York City Matters -Harlem Railroad. From Our Special Correspondent.

ALBANY, March 16, 1864. A QUESTION OF PRIVILEGE.

Mr. Brandreth of Westchester rose in his place this merning, and complained that he had been place this merning, and complained that he had been unfairly treated in this correspondence in the account of the debate on the Westchester County Bounty bill, which appeared in The Thisure of the 14th and 15th inst. Mr. Brandreth maintains that the "hard cases" who were sent down from Westchester County as a part of its quota, and who were so severely criticised by Gen. Dix, were not his constituents, but were procured in the City of New-York, and that he so stated during the debate on the bill. As the gentleman is undoubtedly right in this assertion, he is entitled to the benefit of the correction. The bill itself was lost this morning for want of a constitutional majority.

THE FOLICE BILL.

MANIFESTO OF THE NEW PRESIDENT

Later advices to the 25th of February from the Republic of San Salvador, report the country as quiet

The National Congress has passed a decree sanctioning the deposing of President Barries, and confirming the appointment of Duenas as Provisional President. He is to be the supreme executive power, and to retain command of the army until a President be regularly elected according to the Constitution.

Señor Duenas has published a "message," in which he attacks the character and policy of Ex-President Barrios; declares that England sent agents and the United States fillibusters to foment troubles in San Salvador; reviews the revolution there and the part that he (Duenas) took in it, and implores the blessing of Heaven on the political regeneration of the Republic The message is dated Feb. 18.

The Presidents of Salvador and Guatemals had made a joint state visit to the City of Sonsonate, where they were received with public festivities.

From San Francisco.

San Francisco, Tuesday, March 15, 1864.

There is rather more activity in business. Isthmus butter and sugar are very firm. Foreign and domestic spirits are unsettled. There have been extensive operations in alcohol, ales, &c. Goods are going to Oregon en route to Boyes and the neighboring minus as rapidly as transportation facilities will permit. Telegraphic advices from Portland, Oregon, represent all steamers leaving for the Cascades as crowded with pasengers and freight.

County Conventions to elect delegates to the State Convention were held throughout Oregon on the 18th. As far as heard from, all passed resolutions indorsing the policy of the Government, and recommending the reduction of Abraham Lincoln.

OFFICE OF THE GRAFFERSTERS CONTANT, No. 139 WILLIAMS.

St., (NRAN FILEDS), NEW-YORK.

Under the above heading Dr. J. F. Bridge (Secretary and Resident Physician of the Grasfenberg Company) addressed a series of letters, some years ago, to the medical profession and to the public, which structed great attention to the Grasfenberg Company's Uterine Catholicon (biarshall's). The nlarming extent, in every age and conditions of woman's life, of the complaints commonly known as "female weakness," together with the constitutional symptoms, such as nervousness, deranged digestion, headache, &c., and the fact that there was no remedy for them until the discovery of this Catholicon, induced the tensive trial of the remedy.

Fortunately for suffering woman, the expectations induced by acientific analysis were more than fedilled upon trial. Ninety live out of every hundred cases have been multirly cared, and the few cases where great age or absolute physical injury to vital organs have prevented a complete cure, the symptoms have been much relieved.

CERTIFICATES.

I have practiced medicine in this village some ten years.
During the entire time I have observed the action of the Graefenberg Company's Uterine Catholicon (Marshalf's), in cases of
Foundle Weakness. I take great piesaure in stating that I
have known many complete curse effected by taking two or
three bottles, and have never known an instance where it did
not give complete satisfaction.

MANUFACTURERS OF AND DEALERS IN MUSICAL INSTRUMENTS are respectfully cartioned against using the name CABINET ORGANS as applied to any instrument but those of our make. This name is our trade mark legally secured, and we shall feel compelled to seek legal redress for any infringement of our rights in regard to it.

PURCHASERS OF INSTRUMENTS are respectfully advised that the CABINET ORGAN, made exclusively by us, is essentially different from harmonitums and all other small organs, upon which instruments we claim that it is an important inprovement. The great reputation which the CABINET ORGANS and the widely increasing demand for thom, have induced certain parties to advertise quite different instruments as CABINET ORGANS, is some cases, and in others, to represent to purchasers that harmoniums and other red organs are the same time. The superiority of the country, arises not merely remained elicited such strong commendation from the most minent organists and artists of the country, arises not merely from the superiority of their workmanship, but is the result, in large measure, of several patents which are exclusively ours, and the employment of processes peculiar to ourselves, which are the result of iong experience and extended experiment.
